Teachers of Shenandoah County.

You have all been duly informed of the Normal Institute to be held at Harrisonburg, during four weeks, beginning on the 23rd inst. Show by your presence there that you fully recognize your responsibility to yourselves and the public, the importance of your work, and the necessity of having trained teachers; that you properly appreciate the favor of Dr. Curry in providing tuition free; that you appreciate the instructors of the Institute and acknowledge their ability; and that you are as much interested in the work as are the teachers of any other county. Make some sacrifice rather than be absent; it will pay in the end. The people are tired of untrained and unskilled teachers; and those who show a disposition to increase their knowledge of the business, and to properly qualify themselves for it, will always be preferred to those who teach for the money only. Attendance upon such institutes is one of the surest means of laying up that capital without which no teacher can pursue his business successfully. Do not be satisfied with getting a certificate, but get the best. I hope to see many of you there. Apply to me at once for cards &c., if you wish to attend.

Very respectfully,
 W. W. LOGAN,
 C. S. S.

HAMBURG, Va., July 14th, 1884.

LEAP YEAR AT COLUMBIA FURNACE.—On last Tuesday evening Mr. Fudely, clerk in store of Columbia Iron Co., in company with Miss Grundstaff, boarded the midnight Express, bound for some point in Ohio. It seems there were some objections to the consummation of the wishes of these two young hearts "that beat as one," so the young man descended from an upper window (the lady's big brother watched from the door), and met his betrothed at a designated spot and in a few minutes were driven to the depot, and the train soon bore them out of reach of angry fathers and big brothers, and ere this we suppose have been tied fast in the bonds of wedlock.

ACCIDENT.—As the evening freight train from Staunton pulled out from Mt. Crawford last Saturday, two young men, Shifflet and Steel concealed themselves in an open freight car, thinking to ride to Pleasant Valley. When near the latter place they suspected the brakemen were going to close the door upon them and so they leaped out the moving car. Steel had his ankle dislocated and his leg broken below the knee. Shifflet was badly bruised and jarred but had no limbs broken.

We are glad indeed to see our much esteemed friend Howard L. on our streets again, his rheumatism has departed, but just as we go to press he seems to be very lonely and dependent on account of a recent visit to Strasburg. Yesterday he was frequently heard upon the streets humming and whistling that old familiar tune of "The girl I left behind me." Old boy we can sympathize with you, for we have been there and know how it is, but take our advice and when you are away from the lips you love, make love to the lips that be near.

Mr. Jackson

Fatal Railroad Accident

The evening B. & O. express train from Baltimore to Pittsburgh was run into on Saturday night at the corner of 1st and 1st street northeast in Washington by the Martinsburg local train, which was behind hand. M. J. Riley, engineer, and Solomon Vogel, fireman, of the Martinsburg train, both of Baltimore, were killed. James Gallagher, of Hartford county, Md.; S. D. Hawkins, of Tom's Brook, Shenandoah county; R. M. Williams, Pittsburgh W. H. Crawford, of Washington; Samuel Pope, Charles E. Brill, H. Carter, and George Martin, of Baltimore, were injured. The train must have been running at a high rate of speed, as both engines and baggage cars, as well as two passenger coaches, were completely telescoped, while the others were piled in a heap upon one another. The engineer of the train from Martinsburg was seen standing upright in his caboose, wedged in so as to prevent his getting out, while the steam and hot water was scalding him in a frightful manner. A stream of water was turned on him by the firemen, when he was suddenly seen to topple over to one side, and when picked up he was found to be dead.

The fireman, Solomon Vogel, whose injuries were of the most horrible nature, had one leg almost severed from the body, while his bowels were protruding. He was carried to Providence Hospital, and died about midnight.

An old man was found wedged in the smoking car of the Baltimore train, two large seats falling over him, preventing for a long time his release. During the time occupied in getting him out the old man kept singing hymns and repeating his prayers. He was not injured at all, and insisted on looking for his baggage. The newsboy on the train was caught between the stove and door, and it was with great difficulty that he was extricated. Many more were injured, but were so frightened that they quickly left the scene.

When both trains approached the signal in use at night for a clear track was lighted, consisting of a white light facing the train. If the track was in use it was the duty of the switchman to hang up the red danger light. None was shown, and the fact is apparent that the collision was one of gross criminal negligence.
